Part One is a guide to understanding the glands and organs of the body along with how to keep them working properly. Part two deals with root causes of illness. This report describes the University of Utah Traffic Lab (UTL) driving simulator, and a scenario development for Flex Lanes driving simulation. The first part describes the driving simulator in details. At the time of installation, the UTL driving simulator was unique and the first to join microsimulation with driving simulation. This type of integration offers major possibilities beyond those of a "classic" driving simulator. The second part is dedicated to the development of the Flex Lanes scenario. The Utah Department of Transportation (UDOT) will implement the first Flex Lanes (reversible lanes) project on 5400 S in the City of Taylorsville, Utah, in summer of 2012. The UTL, in cooperation with the AAI Corporation, has developed a real-world driving simulation scenario of the Flex Lanes corridor. The UTL is planning to use this driving simulation to assess the drivers' performance and compliance with the posted signalization. A Beginner's Guide to Newborn Baby Technology You've programmed your DVR, you've installed a wireless Internet connection, you can even check Facebook on your cell phone. But none of this experience will prepare you for the world's biggest technological marvel: a newborn baby. Through step-by-step instructions and helpful schematic diagrams, The Baby Owner's Manual explores hundreds of frequently asked questions: What's the best way to swaddle a baby? How can I make my newborn sleep through the night? When should I bring the baby to a doctor for servicing? Whatever your concerns, you'll find the answers here—courtesy of celebrated pediatrician Dr. Louis Borgenicht and his son, Joe Borgenicht. Together, they provide plenty of useful advice for anyone who wants to learn the basics of childcare. "If you're anything like myself, you were frozen with fear and major anxiety when it comes to going to the dentist. For years I went through pain and agony, both physical and emotional, hiding my teeth and not going out to social events because of this. I was afraid of what people would say and how they treat you differently when your teeth are jacked. It's true. I was afraid of what the dentist would say. All of it was truly crippling." I finally broke down and called Dr. Sykes. I could not have been more wrong for pushing off something so serious, so paramount to my overall health, for so long. I had a terrible experience with the dentist when I was younger but with Dr. Sykes it was a night and day comparison! The level of professionalism, and I felt an underlying tone of sincere compassion as soon as I walked in. Dr. Sykes brought me in and actually listened to me and what I needed. He explained everything and gave me many options and plans for me to choose from. I could not have been happier with the entire experience. I can finally smile again and restore confidence that's been missing for years. Thank you, Dr. Sykes!"
