The Oxford Handbook of Canadian Cinema Nov 08 2021 The chapters in The Oxford Handbook of Canadian Cinema present a rich, diverse overview of Canadian cinema. Responding to the latest developments in Canadian film studies, this volume takes into account the variety of artistic voices, media technologies, and places which have marked cinema in Canada throughout its history. Drawing on a range of established and emerging scholars from a range of disciplines, this volume will be useful to teachers, scholars, and to a general readership interested in cinema in Canada.

Moving beyond the director-focused approach of much previous scholarship, this book is concerned with communities, institutions, and audiences for Canadian cinema at both national and international levels. The choice of subjects covered ranges from popular, genre cinema to the most experimental of artistic interventions. Canadian cinema is seen in its interaction with other forms of art-making and media production in Canada and at the international level. Particular attention has been paid to the work of Indigenous filmmakers, members of diasporic communities and feminist and LGBTQ artists. The result is a book attentive to the complex social and institutional contexts in which Canadian cinema is made and consumed.

Constitutional Law for a Changing America Sep 18 2022 A host of political factors—both internal and external—influence the Court’s decisions and shape the development of constitutional law. Among the more significant forces at work are the ways lawyers and interest groups frame legal disputes, the ideological and behavioral propensities of the justices, the politics of judicial selection, public opinion, and the positions that elected officials take, to name just a few. Combining lessons of the legal model with the influences of the political process, *Constitutional Law for a Changing America* shows how these dynamics shape the development of constitutional doctrine. The Tenth Edition offers rigorous, comprehensive content in a student-friendly manner. With meticulous revising and updating throughout, best-selling authors Lee Epstein and Thomas G. Walker streamline material while accounting for new scholarship and recent landmark cases—including key opinions handed down through the 2018 judicial session. Well-loved features keep students engaged by offering a clear delineation between commentary and opinion excerpts, a “Facts” and “Arguments” section before every case, a superb photo program, “Aftermath” and “Global Perspective” boxes, and a wealth of tables, figures, and maps. Students will walk away with an understanding that Supreme Court cases involve real people engaged in real disputes and are not merely legal names and citations.

Strategic Decision-Making in Presidential Nominations Oct 27 2020 Seeks to understand and explain the behavior of party elites during the 2008 Democratic Party presidential race. What is the dominant force in presidential nomination campaigns? Are nomination outcomes decided largely by the political party or by the candidates and their activities? In *Strategic Decision-Making in Presidential Nominations*, Kenny J. Whitby aims to provide some answers to these important questions, focusing on the closely contested 2008 race between Senators Hillary Clinton and Barack Obama. It was this race that spotlighted the role played by superdelegates, the unpledged party elites who were added to the nomination process in the 1980s. Whitby’s central argument is that superdelegates are strategic actors and their endorsements are a response to a variety of demographic, institutional, and campaign factors. While some weigh in early with an endorsement,

many adopt a wait-and-see approach. Using a novel framework generally known as survival analysis, Whitby provides us with a method for understanding when and why party elites decide to chime in on their presidential nomination campaign.

Supreme Court Nominations, 1789-2005 Feb 11 2022 The process of appointing Supreme Court Justices has undergone changes over two centuries, but its most basic feature -- the sharing of power between the President and Senate -- has remained unchanged. To receive a lifetime appointment to the Court, a candidate must first be nominated by the President and then confirmed by the Senate. An important role also has come to be played midway in the process (after the President selects, but before the Senate considers) by the Senate Judiciary Committee. The book provides information on the amount of time taken to act on all Supreme Court nominations occurring between 1900 and the present. It focuses on the actual amounts of time that Presidents and the Senate have taken to act (as opposed to the elapsed time between official points in the process). This book focuses on when the Senate became aware of the President's selection (e.g., via a public announcement by the President).

Supreme Court Nominations Dec 21 2022 This volume explores the Supreme Court Justice appointment process--from Presidential announcement, Judiciary Committee investigation, confirmation hearings, vote, and report to the Senate, through Senate debate and vote on the nomination.
