Chasing Time Aug 05 2021 The early 2000s were an important period, spanning a time when mechanical watches had quite rightly retaken their place in the world market. We all may have a digital device in our pocket that is more accurate than a mechanical watch, but a timepiece has soul, personality, and history. The collection in this book is a step into the world of vintage watch collecting, with a range of photographs, intricate research, and accessible reference material that will intrigue both the casual and avid enthusiast. The collection showcases some of the most interesting, luxurious, and functional 20th-century (1930-1980) mechanical timepieces ever to be produced, including Heuer's Autavia, Rolex's Submariner, Gallet's MultiChron, Zenith's De Luca, and the Universal Space Compax.

Rolex Encyclopedia Dec 09 2021 PRESENTATION: THE ULTIMATE BOOK ABOUT ROLEX Rolex Encyclopedia is the most complete and updated guide on vintage and modern Rolex watches and it includes every Rolex produced from 1905 until today. A travel through time which you won't be able to interrupt! There is a big story behind every important brand: a story made of great ideas, great adventures, enterprises and innovations that have changed the world that we knew. This is the case of Rolex. Many things have already been said about its story, but the love and passion of Guido Mondani Editore have no limits and this is why the Rolex Encyclopedia wants to reach the soul of the story of this important brand, which has changed the world of watchmaking forever. No one before has ever written so much about the great enterprises of Rolex: a story of outstanding pioneers, of courageous and far-sighted persons, of state-of-the-art watches, which almost represent the Holy Grail for watch collectors. A story told in three big books that in their kind are definitely another unique mission. TOPICS Ask yourself a question, any question What is the origin of the name Rolex? Where does the nickname "Bubble Back" come from? How many pieces of the Rolex Split-Seconds model were produced? When was the Submariner model created to commemorate the Panama Channel? How

many Marks exist for the Submariner and Sea-Dweller models? How many Daytona watch models were produced? How many hours does it take to produce a Cerachrom bezel? You will find all the answers in here. Furthermore, these books also provides the estimates of every Rolex, basing on the conditions, and the updated price of all watches in production. High-Pressure Science and Technology Nov 20 2022 High pressure has become a basic variable in many areas of science and engineering. It extends from disciplines of geophysics and astrophysics through chemistry and physics to those of modern biology, electrical and chemical engineering. This breadth has been recognized for some time, but it was not until the early 1960's that an international group of scientists and engineers established the Association Internationale for Research and Advancement of High Pressure Science and Technology (AIRAPT) for bringing these various aspects of high pressure together at an international conference. The First AIRAPT International High Pressure Conference was held in 1965 in France and has been convened at approximately two to three year intervals since that time. The past four AIRAPT International High Pressure Conferences have been held in Germany, Scotland, Japan and the U.S.S.R. Since the first meeting of this kind, our understanding of high pressure behavior of physical systems has increased greatly.

Pax Sep 06 2021 What if the peacemakers became the peacebreakers? What if a future organization, dedicated to maintaining international peace, became the greatest threat to it? That is the premise for the first novel in a military/science fiction series entitled PAX. The series begins

with, PAX: The Millennium Alliance, and is set in the year 2031. It is a time when PAX, the multicultural, multinational, successor to the United Nations and N.A.T.O., patrols the world's oceans in quarter-mile long submersible command ships. Led by the brilliant and charismatic Chairman Julius Petrain, PAX has kept the peace for fourteen years, but they have done their job too well. Lulled into a false sense of security, PAX's international sponsors have allowed their individual militaries to wane, opening the door for Petrain's ruthless grab for worldwide power. All that stands in his way is Jeffrey Speares, the American captain of PAX's newest and largest command ship, a man desperately trying to fit into this new geopolitical reality. With the help of loyal officers like Rachel Velasquez, one of PAX's leading fighter aces, he battles the powerful forces arrayed against him, and ultimately thwarts Petrain's plan of military conquest. Victory however, comes at a very high price.
