Described by Melvin Lasky as "one of the great journalists of our time," Luigi Barzini was also one of the great cultural historians of modern Italy. From Caesar to the Mafia brings together his finest essays, roughly half of them never before published in the English language. Whether discussing the deep Italian roots of Julius Caesar, Casanova's contribution to the art of living big, or Camillo Cavour's contribution to a democratic as well as integrated nation, Barzini makes Italian culture come alive. Whether he is dealing with heroes or villains, he never loses sight of how Italy became a distinct nation. From Caesar to the Mafia is not only about people, but also focuses on places and problems. When Barzini discusses the Sicilians, the Isle of Capri, or his birthplace of Milan, he has the distinct capacity to capture what is universal as well as what is

intimate in each place. An innate sense of psychological profiling enriches these intimate sketches. Because Barzini had such a keen appreciation of Anglo-American culture he emphasizes people and places known to travelers to Italy, as well as readers of Italian literature. What makes the volume so special is Barzini's careful maneuvering between sentimentality on one side and brutality on the other. Italy is not only a state of mind for Barzini, but also a political culture. By discussing the exaggerated mannerism of Mussolini or the unusual capacity of Gramsci to grasp the principles of revolution making in an underdeveloped country, he helps us better understand the operations of fascism and communism as system and ideology. The final essays give voice to Barzini's ability as a political analyst. His examination of the Italian Communist Party's multiple personality disorders, the Christian Democrats as working compromise, the Mafia as a system of power designed not so much to kill as to intimidate and to rule in the absence of popular resistance, tells the reader about modern, postwar Italy. This is a volume not just to be read, but to be savored. Luigi Barzini (1908-1984) was the author of an incomparable set of books on the United States, Europe, and Italy, including *Americans are Alone in the World*, and *The Italians*. He served as a foreign correspondent for *Corriere della Sera*, and later as a liberal deputy in the Italian Parliament. He was described by the late Cyril Connolly as "a philosopher and master of the English language." Michael Ledeen is a distinguished senior fellow at the American Enterprise Institute, and himself a learned scholar in Italian politics and letters. He has written widely on Machiavelli, D'Annunzio, and Italian fascism. This is the first dictionary to identify, chart, and explain in context the many proper names and place names that so famously enrich the poetry of William Butler Yeats and, just as famously, anchor that poetry to Ireland. In compiling this work, Lester I. Conner has relied upon Yeats's own prose, the principal Yeats criticism, and the writings of Yeats's friends and critics. The result is a work that warmly ushers us into the poems, where we find we are not strangers after all. Are the persons, places and events in the Bible fabrications by deceitful men? Many critics of Christianity say yes but archaeological discoveries say no. For the past 150 years archaeologists have been verifying the exact truthfulness of the Bible's detailed records of various events, customs, persons, cities, nations, and geographical locations. In this book Charlie Campbell discusses dozens of fascinating discoveries-both old and new-that have overturned critics' theories of the Bible and helped to confirm the historical reliability of the Scriptures. If you have questions or doubts about the reliability of the Bible, this book will be a great help to you. This full-color edition contains approximately 90 color photographs. The idea of "The Green Book" is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race.

Jane Austen took a particular delight in the resonance of names, and in her novels she used the names of people and places as a potential source of meaning, satirical or historical. Margaret Doody's book is a learned and enjoyable investigation of this aspect of Austen's art. Doody tells us that Austen preferred first names in common and traditional English use, though these sometimes acquire a subtly new flavor in her works. Austen also favored the names of saints and of royalty, but she did use some classically derived pagan names, always with a purpose. And Austen would signal political loyalties and allegiances in her novels through the use of names, both first names and last names, as well as place names. In exploring Austen's names and their connotations, Doody has a larger point to make. By uncovering the riddling and punning in Austen's names, as well as Austen's interest in history, Doody casts Austen as a decidedly earthy writer steeped in the particulars of place and time, rather than a timeless novelist writing in an abstemious style. From this attention to names in her work emerges a picture of Austen that is both fuller than we've had before, and controversial. This edition of his autobiography restores passages that were deleted in the original book because of the publisher's sensitivities about lawsuits, printing and production convenience, a general desire by editors to "soften" some of his remarks, and his own request that portions be published only after his death. NOW A NETFLIX FILM, STARRING ELLE FANNING AND JUSTICE SMITH! The New York Times bestselling love story about two teens who find each other while standing on the edge. And don't miss Take Me with You When You Go, Jennifer Niven's highly anticipated new book with bestselling author David Levithan!

Theodore Finch is fascinated by death. Every day he thinks of ways he might kill himself, but every day he also searches for—and manages to find—something to keep him here, and alive, and awake. Violet Markey lives for the future, counting the days until graduation, when she can escape her small Indiana town and her aching grief in the wake of her sister's recent death. When Finch and Violet meet on the ledge of the bell tower at school—six stories above the ground—it's unclear who saves whom. Soon it's only with Violet that Finch can be himself. And it's only with Finch that Violet can forget to count away the days and start living them. But as Violet's world grows, Finch's begins to shrink. . . . "A do-not-miss for fans of Eleanor & Park and The Fault in Our Stars, and basically anyone who can breathe." —Justine Magazine "At the heart—a big one—of All the Bright Places lies a charming love story about this unlikely and endearing pair of broken teenagers." —The New York Times Book Review "A heart-rending, stylish love story." —The Wall Street Journal "A complex love story that will bring all the feels." —Seventeen Magazine "Impressively layered, lived-in, and real." —Buzzfeed

The room is dim, the chairs are in perfectly lined rows. The city planner puts up a color-coded diagram of the street improvement project, dreading the inevitable angry responses. Jana loves her community and is glad to be able to attend the evening meeting, and she has a lot of ideas for community change. But she has a hard time hearing, and can't see the diagrams clearly. She leaves early. It's time to

imagine a different type of community engagement – one that inspires connection, creativity, and fun. People love their communities and want them to become safer, healthier, more prosperous places. But the standard approach to public meetings somehow makes everyone miserable. Conversations that should be inspiring can become shouting matches. So what would it look like to facilitate truly meaningful discussions between citizens and planners? What if they could be fun? For twenty years, James Rojas and John Kamp have been looking to art, creative expression, and storytelling to shake up the classic community meeting. In *Dream Play Build*, they share their insights into building common ground and inviting active participation among diverse groups. Their approach, “Place It!,” draws on three methods: the interactive model-building workshop, the pop-up, and site exploration using our senses. Using our hands to build and create is central to what makes us human, helping spark ideas without relying on words to communicate. Deceptively playful, this method is remarkably effective at teasing out community dreams and desires from hands-on activities. *Dream Play Build* offers wisdom distilled from workshops held around the world, and a deep dive into the transformational approach and results from the South Colton community in southern California. While much of the process was developed through in-person meetings, the book also translates the experience to online engagement--how to make people remember their connections beyond the computer screen. Inspirational and fun, *Dream Play Build* celebrates the value of engaging with the dreams we have for our communities. Readers will find themselves weaving these artful, playful lessons and methods into their own efforts for making change within the landscape around them.
