The Heart of Leadership Jan 26 2021 Are you the type of leader people want to follow? You can be—but first, you've got to understand what sets great leaders apart from all the rest. Certainly, leaders need people skills, execution skills, a deep knowledge of industry trends, the ability to articulate a vision, and more—they must be competent—but that's just the tip of the iceberg. What's below the waterline? What's deep inside the best leaders that makes them different? Mark Miller contends it is their leadership character. In his latest enlightening and entertaining business

fable, he describes the five unique character traits exhibited by exceptional leaders and how to cultivate them. *The Heart of Leadership* begins with young and ambitious Blake Brown being passed over for a desperately wanted promotion, despite an outstanding individual performance. Confused and frustrated, he turns to his former mentor, Debbie Brewster. Rather than attempting to solve Blake's problem for him, she sends him on a quest to meet with five of his late father's colleagues, each of whom holds a piece of the puzzle he's trying to solve. As Blake puts the pieces together, he discovers that in the final analysis, a lack of skills isn't what holds most leaders back; skills are too easy to learn. Without demonstrated leadership character, however, a skill set will never be enough. Most often, when leaders fail to reach their full potential, it is an issue of the heart. This is Blake's ultimate revelation. This book shows us that leadership needn't be the purview of the few—it is within reach for millions around the world. *The Heart of Leadership* is a road map for every person who desires to make a difference in the lives of others and become a leader people want to follow.

That's the premise of Diahhan Southard's brand new book, Your DNA Guide - the Book, now available for pre-order at a special sale price. (Including troubleshooting, like when your matches just aren't responding or your great-grandparents turn out to be first cousins.) This powerful, hands-on approach is based on Diahhan's 20 years of experience in the genetic genealogy industry and especially in the past five years, as she helps clients one-on-one make DNA discoveries. It became clear to her that while each client's situation may be unique, there are patterns in how you can find solutions that you can apply yourself. Project 333 Jun 18 2020 Wear just 33 items for 3 months and get back all the JOY you were missing while you were worrying what to wear. In Project 333, minimalist expert and author of Soulful Simplicity Courtney Carver takes a new approach to living simply--starting with your wardrobe. Project 333 promises that not only can you survive with just 33 items in your closet for 3 months, but you'll thrive just like the thousands of woman who have taken on the challenge and never looked back. Let the de-cluttering begin! Ever ask yourself how many of the items in your closet you actually wear? In search of a way to pare down on her expensive shopping habit, consistent lack of satisfaction with her purchases, and ever-growing closet, Carver created Project 333. In this book, she guides readers through their closets item-by-item, sifting through all the emotional baggage associated with those oh-so strappy high-heel sandals that cost a fortune but destroy your feet every time you walk more than a few steps to that extensive collection of never-worn little black dresses, to locate the items that actually look and feel like you. As Carver reveals in this book, once we finally release ourselves from the cyclical nature of consumerism and focus less on our shoes and more on our self-care, we not only look great we feel great-- and we can see a clear path to make other important changes in our lives that reach far beyond our closets. With tips, solutions, and a closet-full of inspiration, this life-changing minimalist manual shows readers that we are so much more than what we wear, and that who we are and what we have is so much more than enough.
