Masterly's Series LAB MANUAL OF PHARMACEUTICS-I For Diploma Pharmacy First Year as Per GTU & PCI SYLLABUS This book provides a detailed study of geometrical drawing through simple and well-explained worked-out examples and exercises. This book is designed for students of first year Engineering Diploma course, irrespective of their branches of study. The book is divided into seven modules. Module A covers the fundamentals of manual drafting, lettering, freehand sketching and dimensioning of views. Module B describes two-dimensional drawings like geometrical constructions, conics, miscellaneous curves and scales. Three-dimensional drawings, such as projections of points, lines, plane lamina, geometrical solids and their different sections are well-explained in Module C. Module D deals with intersection of surfaces and their developments. Drawing of pictorial views is illustrated in Module E, which includes isometric projection, oblique projection and perspective projections. The fundamentals of machine drawing are covered in Module F. Finally, in Module G, the book introduces computer-aided drafting (CAD) to make

the readers familiar with the state-of-the-art techniques of drafting. **KEY FEATURES :**  
Follows the International Standard Organization (ISO) code of practice for drawing.  
Includes a large number of dimensioned illustrations, worked-out examples, and  
Polytechnic questions and answers to explain the geometrical drawing process.  
Contains chapter-end exercises to help students develop their drawing skills. The third  
edition of the now popular and successful book includes Board Question Papers 2010  
to 2017. The book is written, presented and published to meet the requirements of  
students of diploma in pharmacy. Written in a lucid and simple language, it attempts to  
demystify and simplify the basic concepts for the students of pharmacy for proper  
understanding of the subject and to get a sure success in the state board examinations.  
One of the most expensive necessities in the United States today is a college degree.  
Each year an in-state public institution costs roughly \$24,000 give or take a few  
thousand dollars. Now multiply that number by 4 and you get roughly about \$96,000  
for a piece of paper that tells potential careers that you know what you're talking about.  
This is disgustingly overpriced. There is a way that nobody ever talks about, that will  
cost you less than \$14,000 in total! Additionally, only taking one year of your time and  
not four. I found the secret and I guarantee that anybody could do this, I did it myself.  
I'm 19 years old and I am now receiving my Bachelor's degree before any of my friends

even receive their Associates degree; and I started a semester late. Get this book now and you will never regret it. Because you can finish college in a year or less for a seventh of the price.
