Rainforest Friends magic funny notebook & journal - diary size 6x9 inch 120 pages..... This book provides insights into the lived experiences of researchers as they negotiate the undulating terrain of the world of paradigms and seek to find their niche. Each chapter presents the journeys of postgraduate candidates, early career researchers and established scholars, starting with an overview of their paradigm, the application of the paradigm to their specific research context, and concluding with the authors reflecting on their identification with and use of the paradigm. The volume acknowledges that determining the paradigm that best aligns with a scholar's personal ideologies and the underlying assumptions of the research can be rather daunting, challenging and perplexing to scholars who are starting their research journey. It offers an accessible exploration of research paradigms and will be a valuable resource for postgraduate researchers, emerging scholars and PhD supervisors. cave becomes a prison infested with thousands of bats, millions of cockroaches, huge spiders and centipedes. All four of the Relves, otherwise known as The Rescue Elves, stopped in their tracks and ran to see what made that gut-wrenching sound! The next thing they knew, a swarm of angry looking monkeys raced towards them, chittering and chattering loudly. Terrified but ready to protect themselves, the Relves were shocked when one monkey slowed to say the Monkey King was caught underneath Santa’s sleigh, which the rescue elves used for, well, rescuing practice. In the early sixties, Stuart Schlegel went into a remote rainforest on the Philippine island of Mindanao as an anthropologist in search of material. What he found was a group of people whose tolerant, gentle way of life would transform his own values and beliefs profoundly. Wisdom from a Rainforest is Schlegel's testament to his experience and to the Teduray people of

Figel, from whom he learned such vital, lasting lessons. Schlegel's lively ethnography of the Teduray portrays how their behavior and traditions revolved around kindness and compassion for humans, animals, and the spirits sharing their worlds. Schlegel describes the Teduray's remarkable legal system and their strong story-telling tradition, their elaborate cosmology, and their ritual celebrations. At the same time, Schlegel recounts his own transformation—how his worldview as a member of an advanced, civilized society was shaken to the core by a so-called primitive people. He begins to realize how culturally determined his own values are and to see with great clarity how much the Teduray can teach him about gender equality, tolerance for difference, generosity, and cooperation. By turns funny, tender, and gripping, *Wisdom from a Rainforest* honors the Teduray's legacy and helps us see how much we can learn from a way of life so different from our own. Anthropologists surmise that the Yanomamo are perhaps the last culture to come in contact with the modern world. Author Mike Dawson's hair-raising and humorous growing up adventures, from his birth in the jungle through the death of his wife, Renee, provide insights into this primitive culture. Dawson was the cultural advisor to the award-winning, full-length feature film, *Yai Wanonabalewa: The Enemy God* ([www.theenemygod.com](http://www.theenemygod.com)), the true story of a Yanomamo leader recounting his life as a shaman and the supernatural struggle for the survival of his people. "...a bit of Huck Finn, with an Amazon twist." Simon Romero Andean Bureau Chief, *The New York Times* Imagine a white boy, in "the hood" of this jungle tribe, living, playing, and growing up Yanomamo. Christopher Bessette, Writer/Director of the feature film *Yai Wanonabalewa: The Enemy God* ...a story of life with Stone-Age people, guaranteed to expand the mind of even the most experienced. Mark Andrew Ritchie, Author, *Spirit of the Rainforest* "Perhaps the finest and most profound account of ethnographic fieldwork and discovery that has ever entered the anthropological literature." —*The Wall Street Journal* "If you want to experience a profoundly different culture without the exhausting travel (to say nothing of the cost), this is an excellent choice." —*The Washington Post* As a young anthropologist, Don Kulick went to the tiny village of Gapun in New Guinea to document the death of the native language, Tayap. He arrived

knowing that you can't study a language without understanding the daily lives of the people who speak it: how they talk to their children, how they argue, how they gossip, how they joke. Over the course of thirty years, he returned again and again to document Tayap before it disappeared entirely, and he found himself inexorably drawn into their world, and implicated in their destiny. Kulick wanted to tell the story of Gapuners—one that went beyond the particulars and uses of their language—that took full stock of their vanishing culture. This book takes us inside the village as he came to know it, revealing what it is like to live in a difficult-to-get-to village of two hundred people, carved out like a cleft in the middle of a tropical rainforest. But *A Death in the Rainforest* is also an illuminating look at the impact of Western culture on the farthest reaches of the globe and the story of why this anthropologist realized finally that he had to give up his study of this language and this village. An engaging, deeply perceptive, and brilliant interrogation of what it means to study a culture, *A Death in the Rainforest* takes readers into a world that endures in the face of massive changes, one that is on the verge of disappearing forever. Emily, Jacob and Frank go on safari, but find the animals are being attacked by strange creatures. Who is transforming animals into monsters? And what is wrong with Frank? This series of eight books follows the antics of Emily, Jacob and Frank the hamster as they traverse the perils and wonders of Emily's eccentric grandfather's magical - if overambitious - theme park. *Adventure Park* has a reading age of just 7-8 and is designed to capture the imaginations of reluctant and struggling readers aged 9-12. The combination of simple language, short sentences and well-developed, humorous characters provide an accessible yet enjoyable reading experience for the age group, without being patronising. Through the magic of close-up photography, the author first asks the reader to identify an object found in a rain forest in a super-close-up picture, with the next page revealing the entire picture. Funny rhyming riddles give helpful clues that entice young readers to guess which rainforest animals are hiding under the flaps in this sturdy board book. I'm a feathery feller, / a canopy dweller, / a brainy bird, too, I swear it! At rest or in flight, / I'm a colorful sight. / Squawkity-squawk! I'm a . . . Did you guess parrot? Authors Diane Z. Shore and Deanna Calvert team

up with clever rhymes to introduce parrots, sloths, and other rainforest animals. Artist Stephanie Bauer's bright painted patterns and unique colorful textures hide the animals just enough to make this book a fun guessing game. Serving up a dumpling-sized portion of animal riddles, the Riddle Diddle Dumplings board book series will appeal to toddlers and preschoolers and is perfect for sharing among siblings or multi-age groups of kids.
