The slightly true narrative of how a brave pioneer father brought apples, pears, plums, grapes, and cherries (and children) across the plains. Apples, ho! When Papa decides to pull up roots and move from Iowa to Oregon, he can't bear to leave his precious apple trees behind. Or his peaches, plums, grapes, cherries, and pears. Oh, and he takes his family along too. But the trail is cruel. First there's a river to cross that's wider than Texas, then there are hailstones as big as plums, and then there's even a drought, sure to crisp the cherries. Luckily Delicious (the nonedible apple of Daddy's eye) won't let anything stop her father's darling saps from tasting the sweet Oregon soil. A hilarious tall tale from the team that brought you Fannie in the Kitchen that's loosely based on the life of a real fruiting pioneer. For social studies teachers reeling from the buffeting of top-down educational reforms, this volume offers answers to questions about dealing with the Common Core State Standards (CCSS). Each chapter presents and reviews pertinent standards that relate to the social studies. Each chapter also deals with significant topics in the social studies from various social sciences to processes such as inquiry to key skills needed for success in social studies such as analysis and literacy. The most important aspect of these chapters though is the array of adaptable activities that is included in each chapter. Teachers can find practical approaches to dealing with CCSS across the social studies panorama. The multiple authorships of the various chapters mean a variety of perspectives and viewpoints are presented. All of the authors have fought in the trenches of K-12 public education. Their activities reflect this in a way that will be useful to novice or veteran teachers. Describes the experiences of a newcomer to the Yukon when he attempts to hike through the snow to reach a mining claim. On December 25, 1776, the American Revolution seemed all but defeated just six months after the Declaration of Independence had been adopted. George Washington's army had suffered a series of defeats in New York and had retreated under British pressure across New Jersey and then the Delaware River to temporary sanctuary in Pennsylvania. This left the British army in a string of winter cantonments across the middle of New Jersey, the New Jersey state government in total disarray, and the Continental Congress fleeing Philadelphia now perceived as the next British target. Loyalists in New Jersey felt empowered and Patriots felt abandoned. Washington needed not only a battlefield victory, but also to reestablish Patriot control in New Jersey. Otherwise, it would be impossible to raise a larger, long-term army to continue the fight and convince the citizens that victory was possible. The story of these ten crucial days is one that displays Washington's military and interpersonal abilities along with his personal determination and bravery to keep the Revolution alive through maintaining the psychological confidence of the Patriots, while reducing the psychological confidence of his British political and military opponents. Throughout these ten days, Washington was faced with changing situations requiring modifications or outright different plans and his well-thought-out actions benefitted from elements of luck—such as the weather or British decisions—which he could not control. While most books look at these ten crucial days focusing on the military actions of the

armies involved, this account also considers what was happening in other parts of the world. Leaders and ordinary people in other parts of America, in Britain, and in France were also dealing with the Revolution as they understood its condition. Without the instantaneous communication we have today, they were dealing with dated information and were missing knowledge that could influence their thoughts about the Revolution. This lack of immediate communication was also true—although to lesser extent—for the individuals directly involved in the events in New Jersey and Pennsylvania. New York Times Bestseller Now part of the HBO docuseries "Exterminate All the Brutes," written and directed by Raoul Peck Recipient of the American Book Award The first history of the United States told from the perspective of indigenous peoples Today in the United States, there are more than five hundred federally recognized Indigenous nations comprising nearly three million people, descendants of the fifteen million Native people who once inhabited this land. The centuries-long genocidal program of the US settler-colonial regimen has largely been omitted from history. Now, for the first time, acclaimed historian and activist Roxanne Dunbar-Ortiz offers a history of the United States told from the perspective of Indigenous peoples and reveals how Native Americans, for centuries, actively resisted expansion of the US empire. With growing support for movements such as the campaign to abolish Columbus Day and replace it with Indigenous Peoples' Day and the Dakota Access Pipeline protest led by the Standing Rock Sioux Tribe, An Indigenous Peoples' History of the United States is an essential resource providing historical threads that are crucial for understanding the present. In An Indigenous Peoples' History of the United States, Dunbar-Ortiz adroitly challenges the founding myth of the United States and shows how policy against the Indigenous peoples was colonialist and designed to seize the territories of the original inhabitants, displacing or eliminating them. And as Dunbar-Ortiz reveals, this policy was praised in popular culture, through writers like James Fenimore Cooper and Walt Whitman, and in the highest offices of government and the military. Shockingly, as the genocidal policy reached its zenith under President Andrew Jackson, its ruthlessness was best articulated by US Army general Thomas S. Jesup, who, in 1836, wrote of the Seminoles: "The country can be rid of them only by exterminating them." Spanning more than four hundred years, this classic bottom-up peoples' history radically reframes US history and explodes the silences that have haunted our national narrative. An Indigenous Peoples' History of the United States is a 2015 PEN Oakland-Josephine Miles Award for Excellence in Literature. Meet Ranger! He's a time-traveling golden retriever who has a nose for trouble . . . and always saves the day! Ranger has been trained as a search-and-rescue dog, but can't officially pass the test because he's always getting distracted by squirrels during exercises. One day, he finds a mysterious first aid kit in the garden and is transported to the year 1850, where he meets a young boy named Sam Abbott. Sam's family is migrating west on the Oregon Trail, and soon after Ranger arrives he helps the boy save his little sister. Ranger thinks his job is done, but the Oregon Trail can be dangerous, and the Abbotts need Ranger's help more than they realize! First published in 2002. Routledge is an imprint of Taylor & Francis, an informa company. An encyclopedia designed especially to meet the needs of elementary, junior high, and senior high school students. Aligned to the ISTE NETS standards for administrators, this guide provides an actionable plan for integrating new technology into teaching and learning and realizing measurable improvement. Using previously unreleased documents, the author reveals new evidence that FDR knew the attack on Pearl Harbor was coming and did nothing to prevent it. Presents a collection of stories written in the 1960s and 1970s, including "Edge of the World," "At the Seminary," "Four Summers," "By the River," and the title story. Sixteen-year-old Jeb, a greenhorn cowboy, tells the story of his first drive on the Chisholm Trail. This is the story of Lawrence Svobida, a Kansas wheat farmer who fought searing drought, wind, erosion, and economic hard times in the Dust Bowl. It is a vivid account by a farmer who pitted his physical strength, mental faculties, and financial resources against the environment as nature wreaked havoc across the southern Great Plains. Svobida's description of Dust Bowl agriculture is important not only because it accurately describes farming in that region but also because it is one of the few first-hand accounts that remain of the frightening and still haunting dust-laden decade of the 1930's. JORDAN AND JAMIE FOXX • A powerful true story about the potential for mercy to redeem us, and a clarion call to fix our broken system of justice—from one of the most brilliant and

influential lawyers of our time. “[Bryan Stevenson’s] dedication to fighting for justice and equality has inspired me and many others and made a lasting impact on our country.”—John Legend NAMED ONE OF THE MOST INFLUENTIAL BOOKS OF THE DECADE BY CNN • Named One of the Best Books of the Year by The New York Times • The Washington Post • The Boston Globe • The Seattle Times • Esquire • Time Bryan Stevenson was a young lawyer when he founded the Equal Justice Initiative, a legal practice dedicated to defending those most desperate and in need: the poor, the wrongly condemned, and women and children trapped in the farthest reaches of our criminal justice system. One of his first cases was that of Walter McMillian, a young man who was sentenced to die for a notorious murder he insisted he didn’t commit. The case drew Bryan into a tangle of conspiracy, political machination, and legal brinksmanship—and transformed his understanding of mercy and justice forever. *Just Mercy* is at once an unforgettable account of an idealistic, gifted young lawyer’s coming of age, a moving window into the lives of those he has defended, and an inspiring argument for compassion in the pursuit of true justice. Winner of the Carnegie Medal for Excellence in Nonfiction • Winner of the NAACP Image Award for Nonfiction • Winner of a Books for a Better Life Award • Finalist for the Los Angeles Times Book Prize • Finalist for the Kirkus Reviews Prize • An American Library Association Notable Book “Every bit as moving as *To Kill a Mockingbird*, and in some ways more so . . . a searing indictment of American criminal justice and a stirring testament to the salvation that fighting for the vulnerable sometimes yields.”—David Cole, *The New York Review of Books* “Searing, moving . . . Bryan Stevenson may, indeed, be America’s Mandela.”—Nicholas Kristof, *The New York Times* “You don’t have to read too long to start cheering for this man. . . . The message of this book . . . is that evil can be overcome, a difference can be made. *Just Mercy* will make you upset and it will make you hopeful.”—Ted Conover, *The New York Times Book Review* “Inspiring . . . a work of style, substance and clarity . . . Stevenson is not only a great lawyer, he’s also a gifted writer and storyteller.”—*The Washington Post* “As deeply moving, poignant and powerful a book as has been, and maybe ever can be, written about the death penalty.”—*The Financial Times* “Brilliant.”—*The Philadelphia Inquirer*

Medical texts provide a powerful means of accessing contemporary perceptions of illness and through them assumptions about the nature of the body and identity. By mapping these perceptions, from their nineteenth-century focus on illness located in a biological body through to their 'discovery' of the psycho-social patient of the late twentieth century, a history of identity, both physical and psychological, is revealed. "Basing her story on the published accounts of her true-life heroine, Mary Ellen Todd, Van Leeuwen describes a family's tumultuous journey along the Oregon Trail in 1852." --*Publishers Weekly* With only a guide book to show them the way, the Todd family sets out from their Arkansas home on a two thousand mile trek to claim unchartered Oregon Territory. Crossing rough terrain and encountering hostile people, the Todds show their true pioneering spirit. But as winter draws near, will the Todds have the strength to complete their journey? And if they make it, will Oregon fulfill their dreams? “This is a convincing picture of a pioneer journey that does a good job of showing the tremendous sacrifices people made to follow their dream of a better life.” –*School Library Journal*

In the mid-1800s thousands of pioneers crossed the western plains of the United States using the 2,000-mile pathway called the Oregon Trail. Minnow and her family live in one of the many native villages scattered across the plains. She has a lively sense of adventure and her favorite pastime is swimming in the nearby river where she rightly earns her nickname. Rose and her family are traveling in one of the many wagon trains making their way west. It's been a tedious journey with little excitement. Rose can't wait for something thrilling to happen. And one day it does. On the banks of a rushing river that divides one way of life from another, two very different cultures come face-to-face, with life-changing results. In addition to writing children's books, Judy Young teaches poetry writing workshops for children and educators across the country. Her other books with Sleeping Bear Press include the popular *R is for Rhyme: A Poetry Alphabet* and *The Lucky Star*. Judy lives near Springfield, Missouri. A graduate of the Ringling School of Art and Design, Bill Farnsworth has created paintings for magazines, advertisements, children's books, and fine art commissions. He has illustrated more than 50 children's books and his book awards include a Teachers' Choice Award, the 2005 Patricia Gallagher Award, and the 2007 Volunteer State Book Award. Bill lives in Venice, Florida. Standards were developed to guide educational leaders in recognizing and addressing the essential conditions for effective use of technology to support P-12 education. A core text for Intro to Educational Technology courses. With its hallmark ASSURE technology integration model and classroom cases, this renowned text places readers squarely in the classroom while providing a framework that teaches them to apply what they learn about

computers, multimedia, Internet, distance learning, and audio/visual technologies to the 21st Century classroom instruction. Filled with examples drawn from authentic elementary and secondary education situations, this text paints a vivid picture of technology and media enhancing and supporting teaching and learning. The ASSURE cases are supported by video, guided reflection prompts, and lesson plans that demonstrate strong technology integration and lesson planning. In addition to preparing educators with best practices to incorporate technology and media to meet the needs of 21st Century learners, the book includes strong coverage of copyright concerns, free and inexpensive media resources, as well as learning theory and instructional models. The tenth edition updates reflect the accelerating trend toward digitizing information and school use of technologies, especially in the Web 2.0 era. The tenth edition also addresses the interaction among the roles of teachers, technology coordinators, and school media specialists, all complementary and interdependent teams within the school. Side A of this DVD contains the navigation structure for accessing the contents on this DVD and side B contains video files for the clips from the classroom section. In this book, Dewey tries to criticize and expand on the educational philosophies of Rousseau and Plato. Dewey's ideas were seldom adopted in America's public schools, although a number of his prescriptions have been continually advocated by those who have had to teach in them. In 1838, settlers moving west forced the great Cherokee Nation, and their chief John Ross, to leave their home land and travel 1,200 miles to Oklahoma. An epic story of friendship, war, hope, and betrayal. NEW YORK TIMES BESTSELLER • The “compassionate” (People), “startling” (Baltimore Sun), “moving” (Chicago Tribune) true story of two kids with the same name from the city: One went on to be a Rhodes Scholar, decorated combat veteran, White House Fellow, and business leader. The other is serving a life sentence in prison. In development as a feature film executive produced by Stephen Curry, who selected the book as his “Underrated” Book Club Pick with Literati The chilling truth is that his story could have been mine. The tragedy is that my story could have been his. In December 2000, the Baltimore Sun ran a small piece about Wes Moore, a local student who had just received a Rhodes Scholarship. The same paper also ran a series of articles about four young men who had allegedly killed a police officer in a spectacularly botched armed robbery. The police were still hunting for two of the suspects who had gone on the lam, a pair of brothers. One was named Wes Moore. Wes just couldn't shake off the unsettling coincidence, or the inkling that the two shared much more than space in the same newspaper. After following the story of the robbery, the manhunt, and the trial to its conclusion, he wrote a letter to the other Wes, now a convicted murderer serving a life sentence without the possibility of parole. His letter tentatively asked the questions that had been haunting him: Who are you? How did this happen? That letter led to a correspondence and relationship that have lasted for several years. Over dozens of letters and prison visits, Wes discovered that the other Wes had had a life not unlike his own: Both had had difficult childhoods, both were fatherless; they'd hung out on similar corners with similar crews, and both had run into trouble with the police. At each stage of their young lives they had come across similar moments of decision, yet their choices would lead them to astonishingly different destinies. Told in alternating dramatic narratives that take readers from heart-wrenching losses to moments of surprising redemption, *The Other Wes Moore* tells the story of a generation of boys trying to find their way in a hostile world. John Reynolds Gardiner's classic action-packed adventure story about a thrilling dogsled race has captivated readers for more than thirty years. Based on a Rocky Mountain legend, *Stone Fox* tells the story of Little Willy, who lives with his grandfather in Wyoming. When Grandfather falls ill, he is no longer able to work the farm, which is in danger of foreclosure. Little Willy is determined to win the National Dogsled Race—the prize money would save the farm and his grandfather. But he isn't the only one who desperately wants to win. Willy and his brave dog Searchlight must face off against experienced racers, including a Native American man named Stone Fox, who has never lost a race. Exciting and heartwarming, this novel has sold millions of copies and was named a New York Times Outstanding Children's Book. When President George Washington ordered an army of 13,000 men to march west in 1794 to crush a tax rebellion among frontier farmers, he established a range of precedents that continues to define federal authority over localities today. The "Whiskey Rebellion" marked the first large-scale resistance to a law of the U.S. government under the Constitution. This classic confrontation between champions of liberty and defenders of order was long considered the most significant event in the first quarter-century of the new nation. Thomas P. Slaughter recaptures the historical drama and significance of this violent episode in which frontier West and cosmopolitan East battled over the meaning of the American Revolution. The book not only offers the broadest and most comprehensive account of the Whiskey Rebellion ever written, taking into account the

political, social and intellectual contexts of the time, but also challenges conventional understandings of the Revolutionary era. This guide for teachers discusses the use of information and communication technology (ICT) in education. Ten contributions from Kwok-Wing Lai and other educators examine such topics as professional development for teachers using ICT, educational resources on the Web, development and evaluation of websites, dealing with inappropriate materials on the Internet, and health and safety issues.

From one of America's most popular short story writers and an Academy Award nominee: the O. Henry Award-winning tale that inspired the movie *The Hunt*. A subject of mysterious rumors and superstition, the deserted Caribbean Island was shrouded in an air of peril. To Sanger Rainsford, who fell off a yacht and washed up on its shores, the abandoned isle was a welcome paradise. But unknown to the big-game hunter, a predator lurked in its lush jungles—one more dangerous than any he had ever encountered: a human. First published in 1924, this suspenseful tale “has inspired serial killers, films and stirred controversy in schools. A century on, the story continues to thrill” (*The Telegraph*). “[A] tense, relentless story of man-against-man adventure, in which the hunter Sanger Rainsford learns, at the hands of General Zaroff, what it means to be hunted.” —*Criterion*

In 1860, a somewhat simple-minded fifteen-year-old boy attempts to herd one thousand turkeys from Missouri to Denver, Colorado, in hopes of selling them at a profit. For use in schools and libraries only. When a young pioneer girl smuggles a cat aboard the wagon train taking her family from Missouri to Oregon, it turns out to be the best thing she could have done. Thousands of black cowpunchers drove cattle up the Chisholm Trail after the Civil War, but only Nat Love wrote about his experiences. Born to slaves in Davidson County, Tennessee, the newly freed Love struck out for Kansas after the war. He was fifteen and already endowed with a reckless and romantic readiness. In wide-open Dodge City he joined up with an outfit from the Texas Panhandle to begin a career riding the range and fighting Indians, outlaws, and the elements. Years later he would say, “I had an unusually adventurous life”. That was rare understatement. More characteristic was Love's claim: “I carry the marks of fourteen bullet wounds on different parts of my body, most any one of which would be sufficient to kill an ordinary man, but I am not even crippled”. In 1876 a virtuoso rodeo performance in Deadwood, Dakota Territory, won him the moniker of Deadwood Dick. He became known as DD all over the West, entering into dime novels as a mysteriously dark and heroic presence. This vivid autobiography includes encounters with Bat Masterson and Billy the Kid, a soon-after view of the Custer battlefield, and a successful courtship. Love left the range in 1890, the year of the official closing of the frontier. Then, as a Pullman train conductor he traveled his old trails, and those good times bring his story to a satisfying end. This 8-week interdisciplinary unit for fourth- and fifth-grade students helps children address the U.S. westward expansion in the 1840's using the interactive software program, *The Oregon Trail*. The unit provides connections to literature, geography, computer/mathematics skills, language arts, and research skills. The work is done in cooperative groups over the course of the unit with a variety of assessment strategies suggested. Worksheets, handouts, and student materials are included. Upon completion of the unit students will be able to: (1) locate and identify the states along the Oregon Trail; (2) identify reasons for westward expansion; (3) gain a basic understanding of some of the native North American culture; (4) participate in collaborative group activities; and (5) demonstrate knowledge of life in the 1840s--food, clothing, families, etc. Selected bibliography contains 32 items. A supplemental textbook for middle and high school students, *Hoosiers and the American Story* provides intimate views of individuals and places in Indiana set within themes from American history. During the frontier days when Americans battled with and exiled native peoples from the East, Indiana was on the leading edge of America's westward expansion. As waves of immigrants swept across the Appalachians and eastern waterways, Indiana became established as both a crossroads and as a vital part of Middle America. Indiana's stories illuminate the history of American agriculture, wars, industrialization, ethnic conflicts, technological improvements, political battles, transportation networks, economic shifts, social welfare initiatives, and more. In so doing, they elucidate large national issues so that students can relate personally to the ideas and events that comprise American history. At the same time, the stories shed light on what it means to be a Hoosier, today and in the past. Written by Dr. Stacy Dean, this book satisfies the overwhelming demands of today's classroom teacher. Dr. Dean has developed a lesson plan book that guides teachers to plan instruction more effectively in order to meet the needs of diverse learners. Based on Universal Design for Learning (UDL), this valuable framework will assist teachers in creating accessible classrooms. Additionally, it addresses standards-based education and scientifically based instruction in an era of accountability, including the use of assistive technology. With a no-fail format for planning instruction and a plethora of tips and resources,

teachers of diverse populations (general, special education, mixed ability, at-risk, ELL) finally have one document that incorporates all of the necessary guidelines for effective planning and teaching. While on trial as an accomplice to a murder, sixteen-year-old Steve Harmon records his experiences in prison and in the courtroom in the form of a film script as he tries to come to terms with the course his life has taken. In 1898, Moses Thomas's summer vacation does not go exactly as planned as he contends with family problems and the ever-changing alliances among his friends at the same time as he is exposed to the escalating tension between the African-American and white communities of Wilmington, North Carolina. 1910. Pownal, Vermont. At 12, Grace and her best friend Arthur must leave school and go to work as a “doffers” on their mothers’ looms in the mill. Grace’s mother is the best worker, fast and powerful, and Grace desperately wants to help her. But she’s left handed and doffing is a right-handed job. Grace’s every mistake costs her mother, and the family. She only feels capable on Sundays, when she and Arthur receive special lessons from their teacher. Together they write a secret letter to the Child Labor Board about underage children working in Pownal. A few weeks later a man with a camera shows up. It is the famous reformer Lewis Hine, undercover, collecting evidence for the Child Labor Board. Grace’s brief acquaintance with Hine and the photos he takes of her are a gift that changes her sense of herself, her future, and her family’s future.
