Convent Junction is a story of a girl who grew up in the city of Vizag (Visakhapatnam) in the state of Andhra Pradesh. She has a lovely and secure childhood in a close-knit family. Her parents and two elder sisters are the center of her existence. The family is totally at peace with their lives. The story narrates the simple pleasures, occupations, and trips that the family takes. It describes the way of life in the 1980s and 1990s in a middle-class Indian household. The situation is quite different in the present time, when the young girl has become a bitter and negative housewife. The story picks up where she is facing the difficulties and challenges of middle age and the conflicting pressures of being an ideal homemaker and a professional, between following her heart and the norms of society. Some of the themes that the story narrates are the values of rural and urban India, friendship and love, family and responsibilities, education and independent thinking, modern and tradition ways of life, harmony and belongingness to a place. This is a memoir on the author's father, BK Purushothama, a dynamic person, an educationist and a visionary. This book touches upon leadership lessons, life lessons and spiritual aspects of life. It showcases how ordinary people can also lead an extraordinary life if only they begin to believe in themselves. It narrates how one man could inspire, influence and impact hundreds of people in his lifetime by living his life of values and beliefs. The memoir is for all those who seek answers to, the why, what and how of life. This book is a work of art that empowers us to overcome our own barriers in life and brings with it the illuminating opportunity to transform our relationships. There is no greater role model than a father who speaks through his daughter to inspire us all to enjoy deep connection with our own spiritual connection. – Linda Vettrus-Nichols 20x Author, Book in 30 days Coach, www.LindaVettrus-Nichols.com The King lives on through his books! The question of how language emerged is one of the most fascinating and difficult problems in science. In recent years, a strong resurgence of interest in the emergence of language from an evolutionary perspective has been helped by the convergence of approaches, methods, and ideas from several disciplines. The selection of contributions in this volume highlight scenarios of language origin and the prerequisites for a faculty of language based on biological, historical, social, cultural, and paleontological forays into the conditions that brought forth and favored language emergence, augmented by insights from sister disciplines. The chapters all reflect new speculation, discoveries and more refined research methods leading to a more focused understanding of the range of possibilities and how we might choose among them. There is much that we do not yet know, but the outlines of the path ahead are ever clearer. What makes a marriage-love or compatibility? Passion or pragmatism? To make the journey into the Now we will need to leave our analytical mind and its false created self, the ego, behind. From the very first page of Eckhart Tolle's extraordinary book, we move rapidly into a significantly higher altitude where we breathe a lighter air. We become connected to the indestructible essence of our Being, "The eternal, ever present One Life beyond the myriad forms of life that are subject to birth and death." Although the journey is challenging, Eckhart Tolle uses simple language and an easy question and answer format to guide us. A word of mouth phenomenon since its first publication, The Power of Now is one of those rare books with the power to create an experience in readers, one that can radically change their lives for the better. My Story: Gauri, the daughter of immigrants from the Southern state of Andhra Pradesh, India, is raised in the United States. Her marriage to an engineer from India falls apart as she struggles to balance the lifestyle of East and West. Frequent arguments and misunderstandings regarding traditional values, take its toll resulting in the collapse of their union. Maya and her Grandmother: Mayas relationship with a man much older than her, sends her disapproving parents on a pilgrimage to India. His behavior makes her rethink their relationship, but she seeks his company following the accidental demise of her parents and

aunt. She goes to India for their last rites and feeling alone and adrift, she convinces her grandmother to come to the US to stay with her. Mayas conversation with her grandmother about her troubled relationship with her boyfriend, Nick, reveals a side of her grandmothers life similar to her own. It gives her the strength and confidence to make a firm decision and move on. The Will: The life of Rishi, a young doctor from NC, USA, is dramatically altered when he is requested to go to Mumbai, India, to claim a large amount of money. This bequest to him by the elderly Indian visitor who befriended him on the trail where he frequently jogs, leaves him confused and perplexed. He struggles between acceptance and rejection of the inheritance, but an unexpected chain of events during his Mumbai visit and thereafter in the US, help him in his decision. This book is a speck of fire from mans inherent quest to be at a perfect self-contented oneness with nature. Todays rat race towards technological development might have thrust man to lack awareness of that quest. Infact, the human journey and conditioning itself has an inherent character of making him lack awareness of his pristine aspects. This book is a humble effort in reminding man of his own quest, in facilitating him to get in touch with the truth long-suppressed and forgotten. The growing imbalance in the society is finding its expression not merely as the materialistic gap between haves and have-nots, but also in the form of Kundalini/Consciousness Awakening in more and more people. The spiritual deficit of the human collective is manifesting as spiritual burden on some. We know the many scientific laws of conservation, dont we? Among other things, the book propounds a possibility that our incapacity to comprehend God might be the limitation of human evolution, as of now! As much as the book talks about God, Spirituality and Mysticism, the book is more an effort in questioning the sufficiency of science for current needs of human evolution. Time has come for man to expand his horizons not through Technology but by regaining his roots of spiritual strength and in the process expand the horizons of science. No development can be linear and no one instrument can prove self-sufficient for human evolution. In that sense, Science has reached its threshold. Yet, Science with Heart is waiting to be discovered and explored through the reinstatement of Trinity and Balance in the world. This book might not contain any new spiritual talk or wisdom for the spiritually inclined. But it might make a very interesting read for those who are not spiritually inclined yet. And when we realize that the term spiritually inclined is a misnomer, for we are the spirit, the purpose behind this book would have been fulfilled. This is an attempt to spread some cheer and positive vibes at a time when there is an almost all-pervading gloom – largely triggered by the pandemic. The author has used his phenomenal memory to chronicle the instances narrated by luminaries like his family elders, school teachers, instructors from an in-service training institution and professional colleagues. There is also a section about some memorable programmes beamed over All India Radio. The readers will find that the book covers a wide gamut that includes humour, pragmatism, and life-skills. It could also be seen that the central characters in these instances are not well-known personalities (about whom most of us have already read or heard a lot). Instead, the ‘narrators’ have been persons with whom most of us can easily identify. Is your Dream going to college & getting a degree? How many college grads find work in their chosen fields today? The #1 New York Times bestselling (mostly true) memoir from the hilarious author of *Furiously Happy*. “Gaspingly funny and wonderfully inappropriate.”—O, The Oprah Magazine When Jenny Lawson was little, all she ever wanted was to fit in. That dream was cut short by her fantastically unbalanced father and a morbidly eccentric childhood. It did, however, open up an opportunity for Lawson to find the humor in the strange shame-spiral that is her life, and we are all the better for it. In the irreverent *Let's Pretend This Never Happened*, Lawson's long-suffering husband and sweet daughter help her uncover the surprising discovery that the most terribly human moments—the ones we want to pretend never happened—are the very same moments that make us the people we are today. For every intellectual misfit who thought they were the only ones to think the things that Lawson dares to say out loud, this is a poignant and hysterical look at the dark, disturbing, yet wonderful moments of our lives. Enriched by Kiyosaki's personal experience and the teachings he received from his rich dad and poor dad, the book highlights different attitudes towards money, work and life. The book talks about Kiyosaki's background, his business ventures and investments and variation between possessions and liabilities and what importance they both have in terms of starting and owning a business. It also sheds light on the teachings given by rich to their kids, which is usually missed by poor as well as the middle class parents and why it is important to have financial literacy over and above all. It also provides impetus on doing work for learning and not for earning and teaches the importance of investing and building business. Although we have been successful in our careers, they have not turned out quite as we expected. We both have changed positions several times-for all the right reasons-but there are no pension plans vesting on our behalf. Our retirement funds are growing only through our individual contributions. Michael and I have a wonderful marriage with three great children. As I write this, two are in college and one is just beginning high school. We have spent a fortune making sure our children have received the best education available. One day in 1996, one of my children came home disillusioned with school. He was bored and tired of studying. "Why should I put time into studying subjects I will never use in real life?" he protested. Without thinking, I responded, "Because if you don't get good grades, you won't get into college." "Regardless of whether I go to college," he replied, "I'm going to be rich." Shruthi is an eight year old orphan living in South East India. She has been caring for her two younger siblings since their parents died two years before. The children were living with relatives until they were sent to an orphanage. They have been neglected, mistreated and abandoned and as a result are quite insecure. Shruthi feels great responsibility for her brother and sister, vowing to keep her little family intact. But when her three year old sister is given the opportunity to be adopted and taken to America, Shruthi decides to sacrifice her heart and let her sister go where she will have a better life. "Shruthi's Heart" is a story of the struggles and challenges facing Indian orphans and the challenge of transition to a new country, learning a new language and culture. But most of all, it's a story of healing, not only for the parentless children, but also for a childless couple whose lives are fulfilled by merging two cultures and five hearts to make one family. Doing well with money isn't necessarily about what you know. It's about how you behave. And behavior is hard to teach, even to really smart people. Money—investing, personal finance, and business decisions—is typically taught as a math-based field, where data and formulas tell us exactly what to do. But in the real world people don't make financial decisions on a spreadsheet. They make them at the dinner table, or in a meeting room, where personal history, your own unique view of the world, ego, pride, marketing, and odd incentives are scrambled together. In The Psychology of Money, award-winning author Morgan Housel shares 19 short stories exploring the strange ways people think about money and teaches you how to make better sense of one of life's most important topics. After you read it, please share your tips and money-saving hacks in your review Rad Dad: Dispatches from the Frontiers of Fatherhood combines the best pieces from the award-winning zine Rad Dad and from the blog Daddy Dialectic, two kindred publications that have tried to explore parenting as political territory. Both of these projects have pushed the conversation around fathering beyond the safe, apolitical focus most books and websites stick to; they have not been complacent but have worked hard to create a diverse, multi-faceted space in which to grapple with the complexity of fathering. Today more than ever, fatherhood demands constant improvisation, risk, and struggle. With grace and honesty and strength, Rad Dad's writers tackle all the issues that other parenting guides are afraid to touch: the brutalities, beauties, and politics of the birth experience, the challenges of parenting on an equal basis with mothers, the tests faced by transgendered and gay fathers, the emotions of sperm donation, and parental confrontations with war, violence, racism, and incarceration. Rad Dad is for every father out in the real world trying to parent in ways that are loving, meaningful, authentic, and ultimately revolutionary.
