This book documents a major study comparing the Cambridge First Certificate in English (FCE) with the Test of English as a Foreign Language (TOEFL) to investigate similarities in test content, candidature and use. While both tests were designed to measure many of the same abilities, they represent radically different approaches to language test development, reflecting deeper differences between educational measurement traditions in the US and UK. The thorough investigation of the fundamental characteristics and operational utility of two of the most widely used English tests for foreign students makes this study a valuable contribution to language testing research. As such, it will be of considerable interest to language testing specialists and examination boards, as well as to academic researchers and graduate students in the field of language assessment more generally. These Collections Of The Official Past Papers Of The Gce O Level Examinations From The University Of Cambridge International Examinations Has Been Developed For Students Of Gce O Level. These Books Will Act As Tools For Preparation And Revision For Students. These Books Have An Edited Answer Guide For Each Paper Based On The Marks Scheme Written By Cie Principal Test developers need to provide a clear explication of the language ability constructs that underpin the tests they offer in the public domain; such an explication is essential for supporting claims about the validity - or usefulness - of test scores. This volume describes the theory and practice of Cambridge ESOL's approach to assessing second language writing ability. A comprehensive test validation framework is used to examine the tasks in Cambridge ESOL writing tests from a number of different validity perspectives that reflect the socio-cognitive nature of any assessment event. The authors show how an understanding and analysis of the framework and its components can assist test developers to operationalise their tests more effectively, especially in relation to the key criteria that differentiate one proficiency level from another. The book provides: an up-to-date review of relevant literature on assessing writing, an accessible and systematic description of the different proficiency levels in second language writing, a comprehensive and coherent basis for validating tests of writing. This volume is a rich source of information on all aspects of examining writing ability. As such, it will be of considerable interest to examination boards who wish to validate their own writing tests in a systematic and coherent manner, as well as to academic researchers and students in the field of language assessment more generally.
