book. When you sell the car or pass the car on all the information and specifications will be easy to find. Fun gift idea for husbands or sons who love working on car restoration projects. for fixing up and restoring old cars, classic cars, muscle cars books for mechanics. car restoration books, car project planning book. Whether you are a collector, or you sell classic car parts in your spare time, Classic American Car Parts will teach you the tricks and methods used by professional dealers. From GM to FORD to CHRYSLER, even AMC, this book will teach you what to buy, how to find it, and how to get the best deal. This book will also teach you how to market and sell your parts for maximum profit. These are the secret tricks the pros use. Published for the first time, much of this information has never been offered to the public before. You will learn about: Part numbers, date codes, quality, and what makes certain parts worth more than others. How to find buyable and profitable classic cars and parts. How to wheel & deal at swap meets, public auctions or in the sellers driveway. How to maximize profit by parting out junk classic cars. How to market and sell your parts at swap meets or on E-bay. How to run a successful E-bay business. Make \$500 a week selling used auto parts on eBay I'm going to show you how I make \$500 a week (usually much more) selling used auto parts on eBay. And, the great thing is-it's something anybody can do, if you don't mind getting a little dirty or greasy. What I'm going to show you doesn't require a fancy education or previous experience selling on eBay. You

don't even really need to know anything about cars or car parts, but if you do-that's a big plus that can help you make even more money. What got me started selling car parts was I had an old mustang I always planned to restore. Then I got married. We had a kid, and the car sat there in the driveway gathering dust and complaints from the neighbors about it being an eyesore. Finally, I had enough and decided I'd try to sell it on Craigslist, but I didn't get any takers. I called the scrapyard. They offered me one hundred bucks. I was pretty sure a few of the parts alone were worth more than that. Several days later I got this crazy idea. What if I part it out on eBay? I was sure to get more than \$100. Over the next three weeks I pulled every part I could off of that car-shift knobs, shifter arm, distributor, glove box door, hood emblem, and window crank handle. You name a part, I put it up for sale, and the funny thing is they sold. Someone paid me \$33.00 for a window crank, \$25.00 for the Mustang horse emblem, and \$25.00 for the owner's manual. It was nuts! People emailed to ask if I had this or that part left. When I got their emails I'd head back out to the car with my wrench and screw driver to yank it out for them. I'd come back in the house and list the part on eBay for the agreed upon price. After three weeks I'd sold close to \$700 in parts from a car the junkyard offered a hundred bucks for. All I could think was-I need another car. That's when my brother-in-law popped into my head. He had an old Blazer. He was always saying he needed to get rid of it. I offered to

take it off his hands for fifty bucks, and he said okay. By this time I was pretty much hooked. The Blazer parts sold for close to \$1000. I picked up a few more Junkers on Craigslist and made a couple dollars on them. The money was good, but it was just too much work. I told myself there had to be an easier way-one that didn't take so much time, effort, or hard work. That's what I'm going to cover next-how to get all of the used car parts you want without the hassle of having to buy the entire car and strip it down-without having to get all greasy and dirty. Get serious about your eBay selling Order this book - TODAY! The Complete Book on Production of Automobile Components & Allied Products (Engine Parts, Piston, Pin, Piston Ring, Valve, Control Cable, Engine Mounting, Auto Lock, Disc Brake, Drum, Gear, Leaf Spring, Shock Absorber, Silencer, Chain, Cylinder Block, Chassis, Battery, Tyre & Flaps) The rapid urbanization, coupled with an overwhelming growth in the middle class population, has created a market that is extremely conducive for the automobile industry to flourish. It is inferred from the demand, the investment in the automobile industry is estimated at over hundredths of billions in the vehicles and auto components segment. The auto market is thought to be made primarily of automakers, but auto parts makes up another lucrative sector of the market. The major areas of auto parts manufacturing are: Original Equipment Manufacturers (OEMs) - The big auto manufacturers do produce some of their own parts, but they can't produce every part

and component that goes into a new vehicle;

Replacement Parts Production and Distribution - These are the parts that are replaced after the purchase of a vehicle. The book provides a characterization of vehicles, including structure, load, fuel used, requirement of various components, fabrication and so on. It will prove to be a layman's guide and is highly recommended to entrepreneurs, existing units who wants to diversify in production of automobile and allied products, research centers, professionals and libraries, as it contains information related to manufacturing of integral parts of an automobile and practices followed in the finishing of the products. The topics covered in the book are: Classification of vehicles on the basis of load, fuel used and their parts; Material used in the manufacturing of automobile (Metals, Alloys, Polymers etc.); Technology used; Use of Aluminium in Automobiles; Use of Plastics in Automobiles; Manufacturing practices for Engine Parts(Auto Piston, Pins, Piston ring, Lead Storage Battery, Valve & Valve Seat, Automobile Silencer, Automobile Chain, Cylinder Block, Automobile Control Cable, Engine Mounting PAD, Auto Locks etc.); Manufacturing of Automobile Chassis, Disc Brake, Brake Drum, Gear, Gear Blank, Leaf Spring, Shock Absorbers, Automobile Tyres; Heat Treatment System for Automobile Parts; Forging Technology (Open Die Forging Process, Close Die Forging Process, Designing of forged parts) and Painting Technology(Conversion Coating, NAD Finishes, Aluminium Flake Orientation,

Opacity, Gloss, Electro Powder Coating, Spot Repair, Electrostatic Spray etc.) for automobile parts; Scab Corrosion Test, Peel Resistance. Project Report from the year 2011 in the subject Computer Science - Applied, grade: A, University of Florida, language: English, abstract: The database designed for AutoParts Warehouse is to mainly serve as an ecommerce website. Customer can register online with their shipping address and transaction information. Customer can search the parts they need from company website and place order. According to the order come from customer, company can ship the parts to correspondent customers. In order to make economy efficient, company won't save too many parts in stock. Oppositely, Company will keep only minimum number of each part. If one of parts runs out of stock, a staff will order the part from vendor and then send it to customer. Our scope will mainly cover the function of customer order, price query, parts summary and company stock. Online transaction with bank and shipment with shipping company are out of our scope. [...]
