*Health, United States Apr 03 2021 This is the 37th annual report prepared for the Secretary of the Department of Health and Human Services by the Centers for Disease Control and Prevention's National Center for Health Statistics. The report includes a compilation of health data from state and federal health agencies and the private sector. Health, United States, 2013 features 135 tables on key health measures through 2012 from a number of sources within the federal government and in the private sector. The tables cover a range of topics, including birth rates and reproductive health, life expectancy and leading causes of death, health risk behaviors, health care utilization, and insurance coverage and health expenditures. The Health, United States series presents an annual overview of national trends in health statistics. The report contains a Chartbook that assesses the nation's health by presenting trends and current information on selected measures of morbidity, mortality, health care utilization and access, health risk factors, prevention, health insurance, and personal health care expenditures. This year's Chartbook includes a Special Feature on Prescription Drugs that contains an array of*

*statistics. InterRAI Home Care (HC) Assessment Form and User's Manual Dec 11 2021 *The interRAI HC Assessment System has been designed to be a user-friendly, reliable, person-centered system that informs and guides comprehensive planning of care and services for elderly and disabled persons in community-based settings around the world. It focuses on the person's functioning and quality of life by assessing needs, strengths, and preferences. It also facilitates referrals when appropriate. When used on multiple occasions, it provides the basis for an outcome-based assessment of the person's response to care or services. The interRAI HC Assessment System can be used to assess persons with chronic needs for care, as well as with post-acute care needs (e.g., after hospitalization or in a hospital-at-home situation).*
