**A History of Modern Germany** May 27 2020 Covering the entire period of modern German history - from nineteenth-century imperial Germany right through the present - this well-established text presents a balanced, general survey of the country's political division in 1945 and runs through its reunification in the present. Detailing foreign policy as well as political, economic and social developments, *A History of Modern Germany* presents a central theme of the problem of asymmetrical modernization in the country's history as it fully explores the complicated path of Germany's troubled past and stable present.

**Winnetou and Old Shatterhand** Sep 23 2022 The Wild West is alive & well in Europe! But it's a Wild West that has very little to do with a reality called AMERICA. The Wild West for many Europeans has been, always will be a mythical place where Europeans can state their own adventures, fight their own quarrels, dream their own dreams. If the Wild West had never existed, then Europe would have had to invent it *Spaghetti Westerns--the Good, the Bad and the Violent* Dec 14 2021 *Spaghetti Westerns*--mostly produced in Italy or by Italians but made throughout Europe--were bleaker, rougher, grittier imitations of Hollywood Westerns, focusing on heroes only slightly less evil than the villains. After a main filmography covering 558 *Spaghetti Westerns*, another section provides filmographies of personnel--actors and actresses, directors, musical composers, scriptwriters, cinematographers. Appendices provide lists of the popular Django films and the Sartana films, a listing of U.S.-made *Spaghetti Western* lookalikes, top ten and twenty lists and a list of the genre's worst.

**International Westerns** Jan 03 2021 This collection of essays examines non-American Westerns and explores their significance, meanings, and reception. These essays also look at how Hollywood sensibilities are reflected, distorted, or challenged by filmmakers of Westerns in Europe, Australia, and other regions outside the U.S.

**International Adventures** Jun 08 2021 West German cinema of the 1960s is frequently associated with the emergence of a new generation of filmmakers, collectively known by the 1970s as the "New German Cinema." Yet for domestic and international audiences at the time, German cinema primarily meant popular genres such as exotic adventure films, Gothic crime thrillers, westerns, and sex films, which were dismissed by German filmmakers and critics of the 1970s as "Daddy's Cinema." *International Adventures* provides the first comprehensive account of these genres, and charts the history of the West German film industry and its main protagonists from the immediate post-war years to its boom period in the 1950s and 1960s. By analyzing film genres in the context of industrial practices, literary traditions, biographical trajectories, and wider cultural and social developments, this book uncovers a forgotten period of German filmmaking that merits reassessment. *International Adventures* firmly locates its case studies within the wider dynamic of European cinema. In its study of West German cinema's links and co-operations with other countries including Britain, France, and Italy, the book addresses what is perhaps the most striking phenomenon of 1960s popular film genres: the dispersal and disappearance of markers of national identity in increasingly international narratives and modes of production.

**Hitler and Abductive Logic** Aug 22 2022 Was Hitler rational? This question has spawned vociferous debates among historians, and has fascinated every layman who has ever dipped into a biography of Hitler. In *Hitler and Abductive Logic*, Ben Novak argues that Hitler was rational—one of the most logical political leaders of modern times—but not according to ordinary inductive or deductive logic. Instead, Hitler used a new form of logic called abductive logic, which he used as a "trick" to seduce crowds and rise to power. Now, for the first time, the method that Hitler employed is revealed so that it can be recognized and combated.

Karl Mays "Old Surehand" Jun 20 2022 "Old Surehand" ist ein paradigmatisches Werk des Übergangs und der Wandlung Karl Mays. Vor dem Hintergrund der Entstehung bezeugt die Trilogie mit ihren fragwürdigen und rätselhaften Dissonanzen den seelischen Umbruch und die damit verbundenen Krisen des Autors. Der vorliegende Studienband berücksichtigt nahezu alle relevanten Interpretationsaspekte der Trilogie und bringt die Forschung zu diesem bislang oft vernachlässigten Roman ein gutes Stück weiter."

**Der Schatz im Silbersee** Aug 30 2020 Es ist der berühmteste Winnetou- und Old Shatterhand-Roman aller Zeiten. Der Klassiker der Abenteuer-Literatur schlechthin. "Die Männer waren in ähnlicher Weise sorglos und gleich schmutzig gekleidet, dafür aber sehr gut bewaffnet. Es befand sich kein einziger unter ihnen, dem man beim ersten Blicke hätte Vertrauen schenken können. Sie trieben ihr Würfelspiel mit wahrer Leidenschaftlichkeit und unterhielten sich dabei in so rohen Ausdrücken, daß ein halbwegs anständiger Mensch sicher keine Minute lang bei ihnen stehen geblieben wäre." **Old Surehand 1** Mar 25 2020 A note from his blood brother Winnetou calls Old Shatterhand to the desolate Llano Estacado. The Comanche are on the warpath and with hundreds of warriors plan to attack Bloody Fox' secret oasis hideaway in the desert. During his ride Old Shatterhand crosses paths with Old Wabble, the legendary 'king of the cowboys' and together they rescue Old Surehand from the clutches of the enemy Indians. Old Shatterhand realises that Old Surehand is at the centre of a desperate secret when he has an eerie encounter with an insane squaw in Kaam-Kulano. The adventure turns complicated when a detachment of mounted white soldiers becomes involved, but together Winnetou, Old Shatterhand, Old Surehand, and Bloody Fox repel the Comanche attack by cunning and subterfuge. When the cactus trap falls shut behind the enemy Indians, a new friend joins them-Apanatshka, a mysterious Comanche chief; but the other companion, Old Wabble, turns from friend to foe when a scoundrel known as the 'general' appears in the oasis.

**Winnetou** Aug 10 2021 Tells the story of a young Apache chief told by his white friend and blood-brother Old Shatterhand. The action takes place in the US Southwest, in the latter half of the 1800s, where the Indian way of life is threatened by the first transcontinental railroad. His tragic death foreshadows the death of his people.

**Photography and Imagination** Apr 18 2022 As the prototypical exemplar of modern visual technology, photography was once viewed as a way to enable vision to bypass imagination, producing more reliable representations of reality. But as an achievement of technological modernity, photography can also be seen as a way to realize a creation of the imagination more vividly than can painting or drawing. Photography and Imagination investigates, from diverse points of view focusing on both theory and practice, the relation between these two terms. The book explores their effect on photography's capacity, through various forms and modalities of imaginative investments and displacements, to affect even reality itself.

**New Wests and Post-Wests** Nov 01 2020 The writers of these chapters are often working with changing assumptions about literary and media interpretations of an American West. Here we see critical approaches to a West that never was, a West of myth so enduring that the myth dominates nearly all artistic representation about this place that never was. In this collection, we see critical approaches to a New West, a West that is a state of mind, not a geographical place but a mythic space with no boundaries and no political inevitabilities. These New Western studies

accept the idea of a West that includes Canada, Mexico, Alaska, and, in the case of the US, every geographic and historical point west of the historic founding settlements. The West we study today is a post-West, an idea of the West past the traditional views of an old West dominated by white US nationalism and gendered as uncompromisingly masculine. The idea itself of a single West no longer holds validity. We now understand that all renderings of the West are renderings of multiple Wests; Wests constructed by American nationalists, Wests constructed by EuroAmerican writers and filmmakers, Wests constructed by native peoples, or Wests constructed outside the geographical boundaries of the US. This collection presents an eclectic array of new scholarship ranging freely over the New Wests and Post Wests, dealing with issues such as the literature of a 1950s California West; eco-crime genre fiction; the West of Edward Dorn and the Beat Movement; images of prostitution in California Gold Rush literature; European perspectives on film representations of the first peoples; the six shooter and the American West; German Westerns and Italian Westerns; *The Authentic Death of Hendry Jones*, by Charles Neider; and films such as *The Treasure of Sierra Madre*, *Into the Wild*, *There Will Be Blood*, and *The Last Picture Show*. A unique aspect of this collection is the range of writers interpreting the American West in film and literature; besides those writing from within the United States, five of the writers provide international perspectives from the United Kingdom, and the Universities of Tunis, Vienna, and Rome. Each chapter includes a review of scholarship on its subject and an extended bibliography for further research.

A Companion to German Realism, 1848-1900 Jul 09 2021 This volume of new essays by leading scholars treats a representative sampling of

German realist prose from the period 1848 to 1900, the period of its dominance of the German literary landscape. It includes essays on familiar, canonical authors -- Stifter, Freytag, Raabe, Fontane, Thomas Mann -- and canonical texts, but also considers writers frequently omitted from traditional literary histories, such as Luise Mühlbach, Friedrich Spielhagen, Louise von François, Karl May, and Eugenie Marlitt. The introduction situates German realism in the context of both German literary history and of developments in other European literatures, and surveys the most prominent critical studies of nineteenth-century realism. The essays treat the following topics: Stifter's Brigitta and the lesson of realism; Mühlbach, Ranke, and the truth of historical fiction; regional histories as national history in Freytag's *Die Ahnen*; gender and nation in Louise von François's historical fiction; theory, reputation, and the career of Friedrich Spielhagen; Wilhelm Raabe and the German colonial experience; the poetics of work in Freytag, Stifter, and Raabe; Jewish identity in Berthold Auerbach's novels; Eugenie Marlitt's narratives of virtuous desire; the appeal of Karl May in the Wilhelmine Empire; Thomas Mann's portrayal of male-male desire in his early short fiction; and Fontane's *Effi Briest* and the end of realism. Contributors: Robert C. Holub, Brent O. Petersen, Lynne Tatlock, Thomas C. Fox, Jeffrey L. Sammons, John Pizer, Hans J. Rindisbacher, Irene S. Di Maio, Kirsten Belgum, Nina Berman, Robert Tobin, Russell A. Berman. Todd Kontje is professor of German at the University of California, San Diego.

**Winnetou** Oct 12 2021 "May" in this novel presented a western adventure in which a German novice, Old Shatterhand, out-shoots and finally out-wits Yankees and Indians alike. The story is about the friendship of Old Shatterhand, an American pioneer of German descent and Winnetou, a noble Indian chief. This story is highlighted with the humour and spirit of the 'Westmaenner' and the 'noblesse' of the young Apache. Amazing!

Germans and Indians Apr 06 2021 For over three hundred years, the Indian peoples of North America have attracted the interest of diverse segments of German society?missionaries, writers, playwrights, anthropologists, filmmakers, hobbyists and enthusiasts, and even royalty. Today, German scholars continue to be drawn to Indians, as is the German public: tour groups from Germany frequent Plains reservations in the summer, and so-called Indianerclubs, where participants dress up in "authentic" Indian costume, are common. In this fascinating volume, scholars and writers illuminate the longstanding connection between Germans and the Indians. From a range of disciplines and occupations, the contributors probe the historical and cultural roots of the interactions between Germans and Indians and examine how such encounters have been represented

in different media over the centuries. Particularly important are reflections and insights by modern Native American writers on this relationship. Of special concern is why such a connection has endured. As the contributors make clear, the encounters between Germans and Indians were also imagined, sometimes as fantasy, sometimes as projection, both resonating deeply with the cultural sensibilities and changing historical circumstances of Germans over the years.

**The Euro-Western** Jun 27 2020 The Western has always been inextricably linked to the USA, and studies have continually sought to connect its historical development to changes in American society and Hollywood innovations. Focusing new critical attention on films produced in Germany, Italy and Britain, this timely book offers a radical rereading of the evolutionary history of the Western and brings a vital international dimension to its study. Lee Broughton argues not only that European films possess a special significance in terms of the genre's global development, but also that many offered groundbreaking and progressive representations of traditional Wild West 'Others': Native Americans, African Americans and so-called 'strong women'. European Westerns investigates how the histories of Germany, Italy and Britain - and the idiosyncrasies of their respective national film industries - influenced representations of the self and 'Other', shedding light on the broader cultural, historical and political contexts that shaped European engagement with the genre.

*Blood Brothers and Peace Pipes* Oct 24 2022 The first academic book-length study devoted to Karl May festivals, a specific type of Wild-West-themed festivals that take place in Germany every summer, Blood Brothers and Peace Pipes introduces readers to a performance world that is popular at home yet virtually unknown elsewhere. Named for Karl May (1842-1912), arguably the most famous German writer of adventure fiction in the nineteenth and twentieth centuries, these thirteen or so festivals dramatize the exploits of May's most famous Wild West heroes, the Mescalero Apache Winnetou and his blood-brother, the German frontiersman Old Shatterhand, in entertaining theatre plays that use horses, other animals, stunts, and special effects on outdoors stages built specifically for them. Based on ethnographic studies of six of these events, Weber explores the most fundamental features of Karl May festivals: their "Indian" iconographies, fraternity narratives, hybrid genre form, borrowings from U.S. Wild West shows, and performative diversity. Her narrative accounts of these festivals and their interdisciplinary analysis based on

German literature and culture studies, folklore, ethnography, and performance studies, theatre studies, and history guide readers through a specifically German performance world that is not an upshot of the American western, but a homegrown, traditional German version that evolved parallel with it. The composite image of Karl May festivals that emerges in the course of Weber's analysis is that of a unique type of popular event that expresses a deep yearning in German society, that for egalitarian and respectful cross-cultural interactions.

**German and United States Colonialism in a Connected World** Dec 26 2022 This book contributes to global history by examining the connected histories of German and United States colonial empires from the early nineteenth century to the Nazi era. It looks at multiple and multidirectional flows, transfers, and circulations of ideas, people, and practices as Germany and the US were embedded in, and created by, an interconnected world of empires. This relationship was not exceptional, but emblematic of the diverse entanglements that created colonial globality. Colonial entanglements between Germany and the United States took on many forms, but these shared and intersecting histories have been underanalyzed. Traditionally, Germany and the United States have been understood to have taken, respectively, an authoritarian and liberal path into modernity. But there is no neat dichotomy, as the contributors to this book illustrate. There are many more similarities than have previously been appreciated – and they are the result of multilayered entanglements made visible via conquest, settler societies, racialization, and rule of difference. Building on present historiographies of empires, colonialism, and globalization, this book introduces new analytical possibilities for examining these two relatively understudied empires alongside each other, as well as at their intersections. **Migration, Diaspora, Exile** Feb 22 2020 Migration is the most volatile sociopolitical issue of our time, as the current escalation of discourse and action in the United States and Europe concerning walls, border security, refugee camps, and deportations indicates. The essays by the international and interdisciplinary group of scholars assembled in this volume offer critical filters suggesting that this escalation and its historical precedents do not preclude redemptive counterstrategies. Encoded in narratives of affiliation and escape, these counterstrategies are variously launched as literary, cinematic, and civic interventions in past and present constructions of diasporic, migratory, or exilic identities. The essays trace these narratives through the figure of the “exile” as it moves across times, borders, and genres, transmogrifying into the fugitive, the escapee, the refugee, the nomad, the Other. Arguing that narratives and figures of migration to and in Europe and the Americas share tropes that link migration to kinship, community, refuge, and hegemony, the volume identifies a transhistorical, transcultural, and transnational common ground for experiences of mediated diaspora, migration, and exile at a time when public discourse and policy-making emphasize borders, divisions, and violent confrontations.
